Wave 1 – In wave 1 *FdAuthAct_MC* should have been a ‘code all that apply’ question but was asked as a ‘single code’ question. This has been corrected in the edit version of the questionnaire. Check the NotePad answers for all Wave 1 cases. If any additional response options are recorded in the interviewer memo, please code all eligible answers in the edit.

Wave 2, 3 and 4 – This error was resolved for Wave 2 onwards, but double check the NotePad answers in case interviews mistakenly continued recording additional responses in a memo.
